1. As of 1 January 1955, there were 3,115 active Polish oil wells. Of this total, 2,900 wells produced oil by pumping, 200 wells by spooning and pistonning (lyzkowanie i tlokowanie), and in 15 the oil came up by its own pressure.
2. On 1 January 1955, the Ministry of Mining introduced the following changes in the organization of the State Oil Enterprises. These changes were published as Ministry orders Nos. 460-466.
  - a. The Sanok Oil Enterprise (Sanockie Kopalnictwo Naftowe) has been divided into:
    - (1) Kopalnictwo Naftowe, (KN) Sanok, consisting of 9 fields and 2 gasoline refineries (Gazoliniarnie);
    - (2) KN Grabownica, consisting of 9 fields and 2 gasoline refineries.
  - b. The Krosno Oil Enterprise has been divided into:
    - (1) KN Potok, consisting of 10 fields;
    - (2) KN Rowne, consisting of 7 fields and 1 gasoline refinery.
  - c. The Gorlice Oil Enterprise has been divided into:
    - (1) KN Gorlice, with 12 fields;
    - (2) KN Jaslo, with 7 fields and 2 gasoline refineries.
  - d. The Ustrzyki Oil Enterprise (KN Ustrzyki) consists of 9 fields and 2 gasoline refineries.
3. As of March 1955 the Machine and Drilling Equipment Factory (Fabryka Maszyn i Sprzetu Wiertniczego) at Glinnik Mariampolski near Mariampol (N 51-54 E 19-24) is engaged in the production of a new drill. This model, known as JL7-Rundo, is intended for test drillings up to 800 metres in depth and is operated by rotation. The drill is mounted on a mobile platform on caterpillar tracks.
